10. \_\_\_\_\_

Use additional Sheets of paper if necessary.

For each product you need reviewed, please send all of the information you can about the product. Packaging, Hangtags, Warning Labels, Required State and Federal Labels, and all information and manuals that will be sold with the product if completed. Packaging should be sent if completed.

Please attach Material Safety Data Sheets (MSDS) or now called Safety Data Sheets (SDS) sheets for all components of the product.

Are the products above in prototype stages or final manufacturing? \_\_\_\_\_

When can a product be shipped for final review by me? \_\_\_\_\_

Although 90% of the work can be completed with plans, instructions, manuals and photographs, to finalize the work, make sure warning labels can be seen when applied and what labels actually need to be made, I require a final product. It is the packaging, unboxing, reviewing the process, set-up or building of a product that identifies what warnings are appropriate and which ones need to go on the product, the box or the manual. I can work with you on what products need to be shipped and not shipped. Normally, one copy is enough to review the packaging details.

**Shipping Address:**

James H. Moss  
5714 S. Everett Way  
Littleton, CO 80123

Expedited date product will be shipped? \_\_\_\_\_

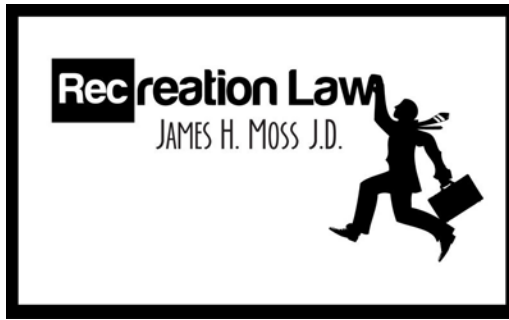

**Other Services I can Provide**

Product Liability Release

Conversion of CE standards to ASTM Standards

Member of the following ASTM Committees

Send to European Clients

## Agreement

I understand that I have hired James H. Moss to review my products, product hangtags, packaging, consumer manual and the product itself to make sure it conforms to the requirements where I intend to sell the product in the US, based on the information I have supplied above. I understand the fee for this work is \$2000.00. The work will include the following:

- Review of your product
- Review of all product warnings, labels and information supplied with the product upon sale
- Review of any consumer manual or information
- Review of any warranty information and warranty disclaimers.
- Your questions answered concerning the information I have reviewed
- Any updates needed for one year

This agreement is for one line of products with essentially the same product warnings and consumer manual. Example, all sleeping bags would be covered by this agreement as one product. Down Jackets that convert to sleeping bags would not. Please contact me if you need to identify what products you need to be reviewed and how many different products that may be.

I understand that if I am in a state other than one that James H. Moss is licensed to practice law I am advised that I should have an attorney licensed in your state review the document.

Product warnings must be continually updated. Each year states and the federal government, modify, add, change or amend their laws and regulations. The information and review I am providing is good for this point in time.

For an additional \$500 I can review your website to make sure your marketing information on your website does not create legal issues for you. Always remember Marketing Makes Promises that Risk Management has to pay for.

I wish to have my website reviewed also. Website: \_\_\_\_\_

### **Work will commence on receipt of the payment.**

I understand the legal work being done will be based on the information I have supplied above.

## Information

### California Fire

[http://osfm.fire.ca.gov/strucfireengineer/strucfireengineer\\_flameretardant](http://osfm.fire.ca.gov/strucfireengineer/strucfireengineer_flameretardant)

Proposition 65 Warnings that MUST go on every product sold in California or purchased and transported to California. (Meaning everything must have the Prop 65 warning.

### California Fire Code Regulations

<http://osfm.fire.ca.gov/strucfireengineer/pdf/flameretardant/FrRegs.pdf>

**California Proposition 65 list:** <https://oehha.ca.gov/proposition-65/proposition-65-list>

Although the list is nice, as you can see it is changed monthly in some cases. Consequently your product can make the list and not require a warning label one month and the next be banned or liable in California for something that was added. Consequently I recommend everything have a Proposition 65 Warning on it.
